All Importers of Pork And Pork Products

Re : PARTIAL LIFTING OF BAN ON THE IMPORTATION OF CANNED PORK PRODUCTS FORM CHINA.

I refer to the press release on 27th October 2019 on the ban of pork and pork products form African Swine Fever (ASF) infected countries including canned pork product from China.

2. I am directed to inform you that the importation of hermetically sealed canned pork products done at high temperature are now allowed namely:

- Stewed Pork, Stewed Pork Chips, Stewed Pork Sliced, Pork Leg with Mushroom, Pork Mince with Bean Paste, Spiced Pork Cube and Pork with Bamboo Short.

3. However, the following items are **not allowed** for the time being as our Laboratory has detected ASF virus in the product of similar preparation time and heat treatment, namely:

- Pork luncheon meat, Egg rolls with Pork, Chopped pork and ham and Pork luncheon with bacon.

4. For canned products, not mentioned in Para 2, you are advised to obtain the necessary documentations of the production process before the canned products can be allowed to be imported.

6. The resumption of items listed in Para 2 will take effect on **1st September 2020**. Initially importation consignment will require a Hold-Test and Release protocol to ensure that the pork products are free from ASF virus contamination.

Thank you.
