MANUFACTURER'S DECLARATION

I, being the Manager of the facility where the product identified in this Zoosanitary Certificate has been processed, certify that:

1. The dairy ingredient used to manufacture the product has been heat treated in conformity with one of the following procedures:

Either

- 1.1 a minimum temperature of 132°C for at least one second (ultra-high temperature [UHT]);

Or

- 1.2 if the milk has a pH less than 7.0, a minimum temperature of 72°C for at least 15 seconds (high temperature-short time pasteurisation [HTST]);

Or

- 1.3 if the milk has a pH of 7.0 or over, the HTST process applied twice.

(Delete 1.1, 1.2 or 1.3 as applicable)

2. The dairy product or product containing dairy ingredients have been produced in premises that are registered or approved by the Competent Government Authority as having acceptable food safety standards governing the processing of dairy products for export.
3. The dairy product or product containing dairy ingredients are in sealed packaging.
