

An Overview of NSW Services

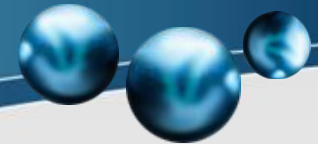

June 2012

Contents

- 1 Background**
- 2 Definition of NSW**
- 3 NSW Services**
- 4 Implementation Status**

NSW for Trade Facilitation

- 1994/95 - The initiative begin with the Port Klang Community System and SMK-Dagang * Net through the implementation of EDI (Electronic Data Interchange)
- 2005 - Government's commitment to realise the ASEAN Economic Community 2015 and integration with ASEAN Single Window (ASW)
- 2007 - MITI as lead agency
- 2009 - MOF as lead agency
 - Contract of DNT as service provider was extended for 5 years from 25/09/2009 until 24/09/2014
 - NSW Section under Tax Analysis Division was officially established 10/06/2010

NSW for Trade Facilitation

NSW originates from the concept of Single Window (SW), whereby UNESCAP defines SW as a **“One stop facility to exchange information between traders and government, thereby reducing the complexity, time and costs involved in international trade”**

The SW enables:

- A smoother trade facilitation through providing a single point of entry to facilitate the transfer of trade documents electronically from one partner to another in the trade community.
- An improved information sharing environment between government agencies and businesses that are involved in cross-border trading. Under the SW approach, citizens and businesses alike would receive government services through a single interface with the Government.

UN/CEFACT Recommendations 33 later defined the NSW terminology as:

“A facility that allows parties involved in trade and transport to lodge standardised information and documents with a single entry point to fulfill all import, export, and transit-related regulatory requirements. If information is electronic, then **individual data elements should only be submitted once.”**

NSW for Trade Facilitation

Definition of Single Window (SW)

- A facility
- that allows parties involved in trade and transport
- to lodge standardized information and documents
- with a single entry point
- to fulfill all import, export and transit regulatory requirements.

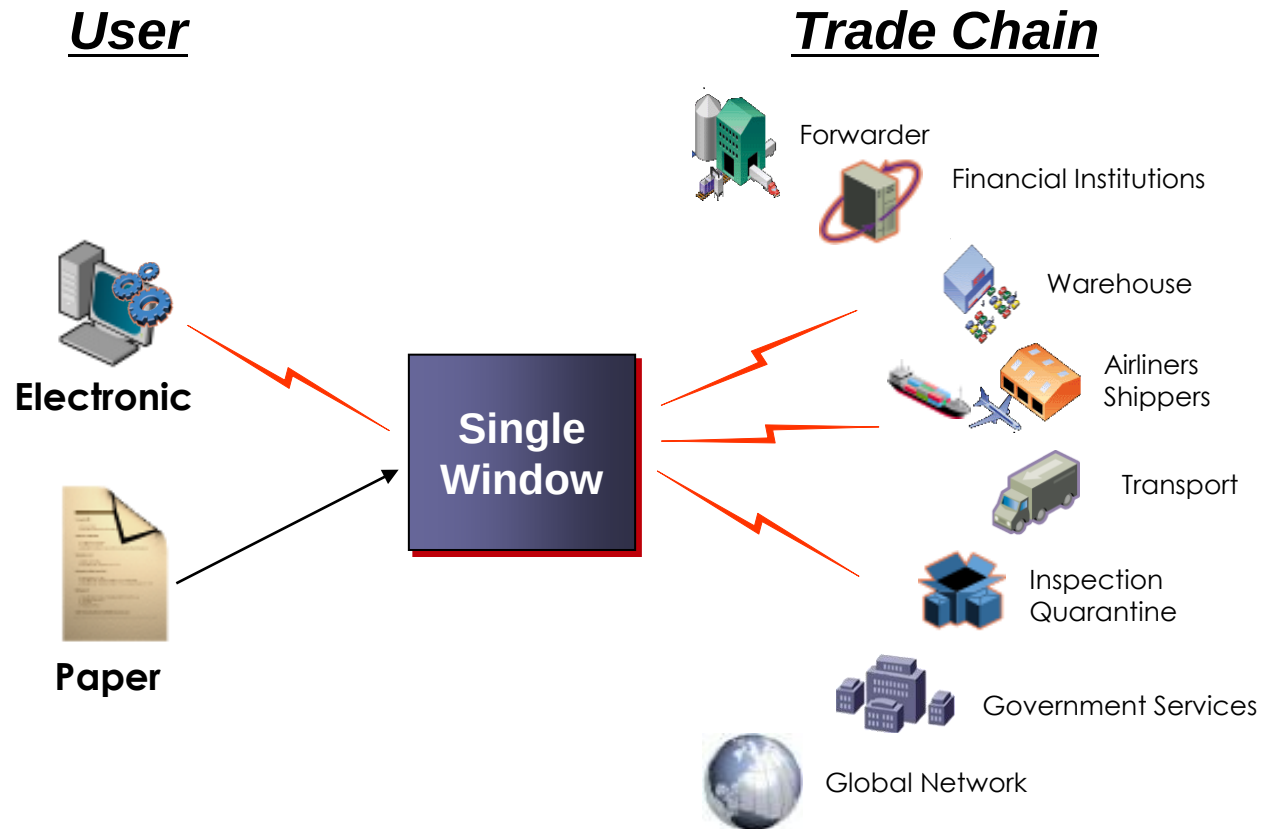

If information is electronic, then individual data elements should only be submitted once.

UN/CEFACT Recommendation 33
(United Nations Centre for Trade Facilitation and Electronic Business)

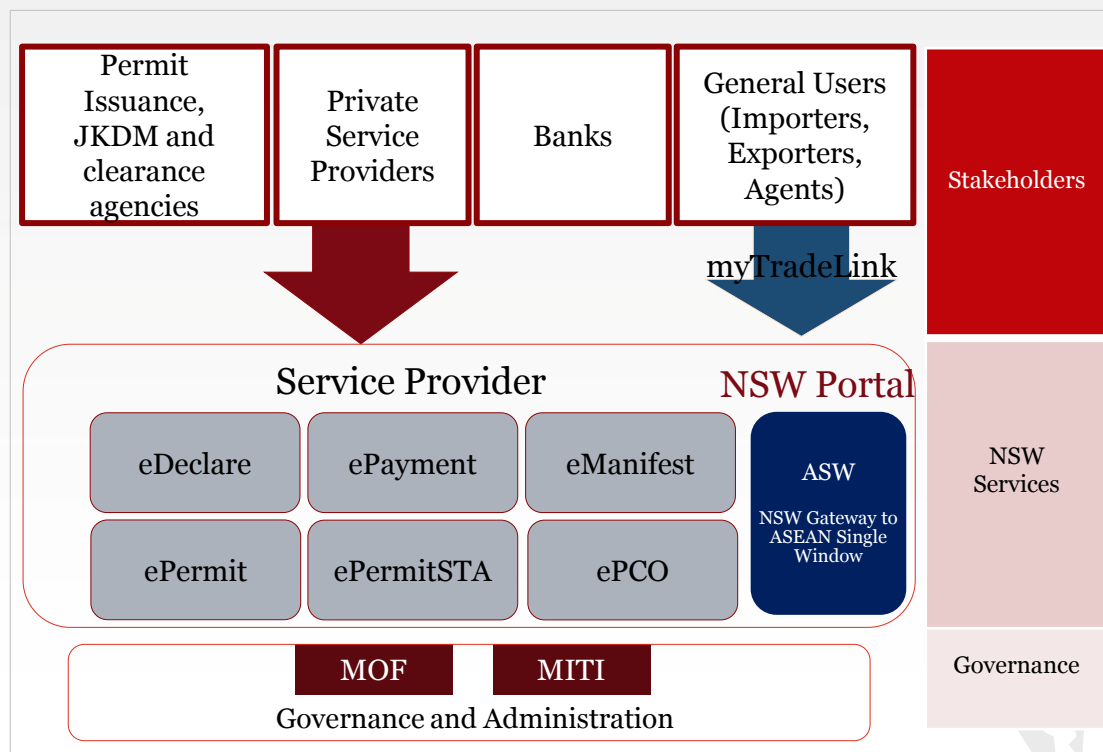

NSW for Trade Facilitation

The Basic Concept

NSW for Trade Facilitation

- Managed and operated by Dagang Net Technologies Sdn Bhd (DNT)
- The system and infrastructure which hosts the NSW are owned by DNT
- Data is owned by the Government
- The Government's role is to provide an oversight, governance and control over the NSW
- The rates for the fees and charges are in accordance to the agreement signed between DNT and the Malaysian Government

NSW for Trade Facilitation

eManifest™

A web-based shipping community system to facilitate submission of **manifest** from the port users to the respective authorities.
